

# Monthly Budget

List your monthly expenses below. Sometimes it is easier to use a weekly figure and multiply by 4.33 weeks, for example: Food \$150/week x 4.33 = \$650 a month. Other times it may be easier to think of what you spend a year and divide by twelve, for example: clothing, medical... If the item is already deducted from your pay check, DO NOT LIST IT HERE (ex: health insurance, daycare flex plan, child support, etc.)

Rent/Mortgage payment	\$ _____	Transportation	\$ _____
